---

## Summary

Front-End Developer specialized in React, TypeScript, and Tailwind CSS, passionate about building modern, responsive, and high-performance web applications with clean, maintainable code and strong UX focus.

---

## Skills & Technologies

### Core Competencies

- HTML5, CSS3, JavaScript (ES6+), TypeScript
  - React, React Router, Hooks, Tailwind CSS, Bootstrap
  - Git & GitHub
  - Front End Development
  - API Integration, Axios
  - Problem Solving
  - IT Technical Support
  - Good knowledge of accounting principles
- 

## Projects

### ◆ Love Acts:- <https://loveacts.vercel.app/>

Designed and developed 'Love Acts' a high-impact single-page landing website using React, Tailwind, CSS and animated UI components. Focused on converting visitors through clear call-to-action flows and streamlined UX

### ◆ Fresh Cart Store App – Full E-commerce React App:- <https://fresh-cart-store-app.vercel.app/>

Built 'Fresh Cart Store App' — a full-featured e-commerce application using React, enabling product listing, filtering, shopping-cart functionality and checkout flow. Incorporated state management, responsive design and seamless user experience

### ◆ Basem Raafat – Portfolio Website :- <https://basem-raafat.vercel.app/>

Developed Basem Raafat portfolio website — a personal branding site built with React and Tailwind, showcasing my projects, skills and professional profile. Emphasized clean UI, mobile-first design and easy maintainability
